Lanternaut Enterprise

Last updated: October 7, 2026

Lanternaut is a sole-proprietor business operating under the brand name Lanternaut ("Lanternaut", "we", "us", "our").

Who it's for

High-volume businesses that need more than the Scale plan. Lanternaut is video and image hosting and streaming infrastructure for businesses and developers: you host and stream your own content to your own viewers, on your own websites and apps.

What's included

- Custom storage, delivery, and encoding allowances
- Volume pricing
- Monthly or annual agreements
- Adaptive streaming up to 4K, or single-quality encoding
- Signed playback links, allowed-domain restrictions, embeddable player, API, and webhooks
- Direct support contact

Pricing

Custom, starting above the Scale plan ($149/month). Quoted per customer based on expected storage, delivery, and encoding volume. Prices exclude tax; Paddle adds any applicable sales tax or VAT at checkout.

Standard pay-as-you-go rates (for reference)

Usage	Rate
Delivery	$3 per TB
Encoding up to 1080p	$0.04/min adaptive, $0.03/min single-quality
2K encoding (2×)	$0.08/min adaptive, $0.06/min single-quality
4K encoding (3×)	$0.12/min adaptive, $0.09/min single-quality
Captions	$0.006/min
Storage	$0.03 per GB per month

Encoding is billed per second, with a 60-second minimum per video. Current prices are always shown at https://lanternaut.com/pricing.
